🏠 He/Him

## 👤 OBJECTIVES

---

- Committed to delivering high-quality results in a fast-paced environment, while maintaining attention to detail and meeting deadlines.
- Strong willingness to learn and adapt, with a proven track record as a fast learner across various technologies and programming languages.
- Dedicated team player with excellent communication skills and the ability to collaborate effectively with cross-functional teams.
- Driven by a passion for technology and a desire to stay up-to-date with industry trends and advancements.

## 🧠 SKILLS

---

**HTML**

**CSS**

**JavaScript**

**ReactJS**

**Tailwindcss**

**MUI**

Material UI

**NextJS**

## 📁 PROJECTS

---

Jan 2022 – Jan 2022

### Netflix Landing page

*Netflix clone using HTML, CSS and JavaScript*

- Created a fully functional Netflix landing page clone using HTML, CSS, and JavaScript to replicate the core features and functionality of the popular video-sharing platform.
- Implemented a responsive and user-friendly UI to provide an intuitive viewing experience across various devices and screen sizes.
- Leveraged Git and GitHub for version control and collaborative development, allowing for seamless teamwork and easy tracking of code changes.

Sep 2022 – Oct 2022

### Guitar Lessons Page

*The frontend project with React.js*

- Designed and developed a frontend project using React to create an interactive and user-friendly guitar lessons site.
- Implemented a responsive UI/UX design, ensuring seamless navigation and optimal viewing experience across devices and screen sizes.

- Developed a structured curriculum of guitar lessons, organizing them into categories, levels, and topics for easy navigation and progression.
- Employed React components and state management to create dynamic and interactive elements, enhancing user engagement and interactivity.
- Utilized CSS and styling libraries to create an appealing visual design while maintaining a clean and intuitive user interface.
- Deployed the project on Vercel, making it accessible to users on the web and ensuring reliable and fast performance.

Feb 2023 – Mar 2023

## **MERN Social Media Site**

- Developed a full-stack social media site using the MERN (MongoDB, Express.js, React (Next.js), Node.js) stack, simulating features similar to Facebook.
- Implemented user authentication using JWT (JSON Web Tokens) to secure user data and enable features like user registration, login, and logout.
- Utilized Next.js for server-side rendering and optimized the site's performance, providing a smooth and responsive user experience.
- Integrated MongoDB for database management, storing user profiles, posts, likes, and other relevant data.
- Implemented functionality for users to upload and update their profile images, allowing for personalization and enhancing user engagement.
- Developed user-friendly interfaces and functionalities for posting updates, viewing and liking posts, and interacting with other users' posts.
- Implemented a real-time update system using web sockets to provide instant notifications for likes and comments on posts.
- Deployed the application on render.com, making the social media site live and accessible to users across the web.
- Ensured data security and optimized data retrieval and storage by implementing best practices for data validation and database queries.
- Employed Git for version control, allowing for efficient collaboration with team members and tracking code changes throughout the project.

Mar 2023 – Mar 2023

## **Youtube Clone**

### *A YouTube clone with HTML, CSS and JavaScript*

- Developed a fully functional YouTube clone using HTML, CSS, and JavaScript to replicate the core features and functionality of the popular video-sharing platform.
- Implemented a responsive and user-friendly UI to provide an intuitive viewing experience across various devices and screen sizes.
- Utilized HTML5 video and JavaScript to enable video playback, including essential functionalities such as play, pause, and seek.
- Integrated CSS styling to mimic the visual design of YouTube, ensuring a cohesive and familiar user interface.
- Implemented key features, such as video search capability, video recommendations, and user comments, to enhance the overall user engagement.
- Leveraged Git and GitHub for version control and collaborative development, allowing for seamless teamwork and easy tracking of code changes.
- Demonstrated effective problem-solving skills by overcoming challenges related to video streaming, cross-browser compatibility, and performance optimization.

- Conducted thorough testing and debugging to ensure a bug-free user experience, addressing any issues promptly and efficiently.
- Documented the project, including the functionalities implemented and noteworthy design decisions, for future reference and knowledge sharing.

## VOLUNTEERING

---

Jun 2023 – present  
Lagos, Nigeria

### **Cowrywise**

#### *Student Ambassador*

- Representing Cowrywise as a brand ambassador to promote financial literacy and raise awareness about the company's products and services.
- Collaborating and working closely with a team of fellow student ambassadors to plan and execute various marketing and outreach initiatives.
- Organizing and participating in on-campus events, workshops, and presentations to educate students about personal finance management and the benefits of using Cowrywise.
- Utilizing strong communication and interpersonal skills to engage with students, address their questions, and provide guidance on financial planning and investment opportunities.
- Assisting in the development of creative content, such as blog posts, social media campaigns, and visual materials, to effectively communicate the value proposition of Cowrywise.
- Actively networking with students, professors, and other relevant stakeholders to expand the reach and impact of Cowrywise within the student community.
- Providing valuable feedback and insights to the Cowrywise team to help improve their products and optimize their marketing strategies specifically targeted to students.
- Demonstrating reliability, professionalism, and enthusiasm while serving as a representative of Cowrywise and maintaining a positive brand image.
